Version 3-FMG2, Last Updated 10/1/24

EARTHWORKS AUDIO

# Thank you for purchasing an Earthworks FlexMic

---

## **INCLUDED ACCESSORIES**

1 MCI Microphone Clip

## **GETTING STARTED**

The FlexMic is a condenser microphone with active electronics.

- 48V phantom power is required
- Its output level will be higher than a dynamic microphone, so be prepared to reduce gain if your previous microphone was a dynamic

Whenever you use your FlexMic, follow these steps:

Before connecting:

- Mute the channel
- Ensure phantom power is switched OFF

After connecting:

- Switch phantom power ON
- Give the microphone at least ten seconds to fully warm up
- Un-mute the channel

Before disconnecting:

- Mute the channel
- Switch phantom power OFF

## **TIPS FOR PLACEMENT**

The Earthworks Audio FlexMic has a large sweet spot, in terms of the width of its coverage and its performance at various distances.

For best results the person speaking should be no more than 60 degrees off-axis and 4 to 12 inches (100mm to 300mm) away from the microphone.

## **TROUBLESHOOTING**

If you encounter issues while using your Earthworks Audio microphone, please make sure that:

- A high-quality XLR cable in good condition is used
- Phantom power is being supplied to the microphone
- All connections from microphone to output source have been securely made
- The microphone is positioned at an appropriate distance from the sound source

If you still think there's an issue with your microphone, please contact us via our website.

## **OPTIONAL ACCESSORIES**

- FMW2 foam windscreen
- PMM1 podium mount for permanent installation

SPECIFICATIONS

Frequency Response  
20Hz - 20kHz

Output  
XLR3-M

Polar Pattern  
Cardioid or Supercardioid

Minimum Output Load  
1k Ohm

Sensitivity  
34 dBV/Pa (20 mV/Pa)

Power Requirements  
48V, 6mA

Max Acoustic Input  
148 dBSPL

Dimensions  
FM5R-C + FM5R-S: 16.24 in x 0.86 in (412.5 mm x 21.84 mm)  
FM6R-C + FM6R-S: 20.74 in x 0.86 in (526.8 mmx 21.84 mm)  
FM7R-C + FM7R-S: 24.61 in x 0.86 in (625.1 mm x 21.84 mm)

Weight  
FM5R-C + FM5R-S: 0.30lb (0.14kg)  
FM6R-C + FM6R-S: 0.35lb (0.16kg)  
FM7R-C + FM7R-S: 0.35lb (0.16kg)

Self Noise  
20 dBSPL (A-Weighted)
